

HIGH SCHOOL TEAM GOES TO GOLDFIELD

LOCAL BAND OF ROOTERS AC-
COMPANY BOYS WHO EX-
PECT A VICTORY.

Accompanied by a crowd of enthusiastic rooters, who hope to see them score a decisive victory, the members of the local high school basketball team left this afternoon for Goldfield, where they will play the Goldfield high school boys in the new school gymnasium this evening. The Goldfield players have been practicing hard for this game for some time past, and a spirited tournament is anticipated.

Those composing the team and their positions follow:

Walter Boler.....Forward
Leo Harrington.....Forward

COUNTY COMMISSIONER O'CONNELL, TAKEN SICK

Tim O'Connell, county commissioner and well-known business man of Tonopah, suffered a stroke of apoplexy shortly after 7 o'clock last night, a small blood vessel bursting. Mr. O'Connell is reported as considerably improved today and his condition is said to be far from serious.

GOLDFIELD MINER FALLS IN STOPE

WELL KNOWN MINER SERIOUSLY
INJURED WHEN PLANK
SLIPS FROM TIMBERS.

GOLDFIELD, Nev., Feb. 17.—George Adams, 58 years old, and one of the best known of the old-time miners in this camp, was seriously injured yesterday forenoon by falling in a stope with a machine drill which he was operating. Adams had placed a plank across the top of a square set upon which to stand while running a Waugh drill, but he failed to spike the plank to hold it in place, the vibration of the machine gradually worked one end of the plank from the top of the square set and Adams fell to the next floor, about eight feet, with the machine, which evidently fell on top of him.

The flesh was torn from the bone on his right cheek and laid back, several ribs were broken, and he sustained other severe bruises. He is now at St. Mary's hospital, under the care of Dr. Wheeler.

Adams is well known to the miners of the district, and was foreman on the Sandstorm a few years ago. He has been employed on the Combination about four years.

MANY PEOPLE WILL WITNESS "THE BARRIER"

Evidently the desire of Tonopah people to see the dramatization of Rex Beach's "Barrier" will give this company a capacity house, as the subscription list has gone beyond the expectations of those interested in bringing this play here, and we can only add that those who intend going would do well to put their names down on the subscription list, which is at the Miners' drug store, as this will entitle you to subscriber's choice of seats one day in advance of the regular sale, as the advance sale opens on Monday, February 20 for subscribers only, and Tuesday, February 21, for the general public.

Those desiring to do so may add their names to the list any time between now and Sunday night and thereby secure the advantages of the opening sale.

Mince meat made out of our apple cider and brandy cannot be surpassed. Hall Liquor company. Ring up 812. 11-22-11

\$500,000 NEEDED TO ASSIST THE UNION MEN

SAMUEL GOMPERS SENDS OUT
AN APPEAL FOR LOS ANGELES
CAMPAIGN FUND.

WASHINGTON, D. C., Feb. 17.—Samuel Gompers, president of the American Federation of Labor, has sent to all labor organizations a circular letter asking aid in raising a fund of \$500,000 to be used in fighting opponents of organized labor in Los Angeles.

"We are issuing this appeal," said Mr. Gompers, "for the purpose of aiding our fellow workmen in Los Angeles to maintain their rights and liberties as men of organized labor."

300 STUDENTS STRIKE FOR LINCOLN—HOLIDAY

GOLDEN, Colo., Feb. 17.—The three hundred students of the state school of mines who went on strike February 14 because President Anderson refused to grant a holiday in honor of Lincoln's birthday have had their hearing before the board and have been exonerated for their demonstration. Twelve of the students who declined to join the strike leaders were "wrinkled." "Wrinkling" is a process of stripping the victim and giving him a mud bath.

MILL'S TAILINGS ARE OBSTRUCTING PASSAGE

Considerable complaint is being heard of the tailings from a mill between Tonopah and Millers overflowing the county road to such an extent as to render it almost impassable. Many teams and other conveyances have experienced considerable difficulty in covering the route, and it is feared that unless some steps are taken immediately the road will shortly be completely filled in. It is the duty of either the district attorney or the county commissioners to investigate this matter, in the interest of the citizens of the county, and institute steps for the immediate removal of the tailings and reinstatement of the passability of the road.

NEVADA TO RECEIVE \$25,000 for Fish HATCHERY

Senator Nixon Is Working Hard on Be-
half of the People He Represents.

Through the persistent efforts of Senator Nixon, the state of Nevada will receive an appropriation from the United States congress to the amount of \$25,000 for the establishment of a fish cultural station. The measure was passed in the senate on February 7, while on February 10, the committee on the merchant marine and fisheries in the house of representatives recommended that the bill be passed.

Just what point will be chosen has not as yet been determined, that matter being left to the discretion of the secretary of commerce and labor. Besides a site, buildings will be erected and ponds built to successfully carry forward the hatching and experimenting in the denizens of the waters of this state. The measure, as passed in the senate, reads: "An act to establish a fish cultural station in the state of Nevada: Be it enacted by the senate and house of representatives of the United States of America, in congress assembled, that the sum of twenty-five thousand (\$25,000) dollars, or so much thereof as may be necessary, be, and the same is hereby, appropriated for the establishment of a fish-cultural station in the state of Nevada, including purchase of site, construction of buildings and ponds, and equipment, at some suitable point in the state, to be selected by the secretary of commerce and labor."

JUDGE H. V. MOREHOUSE OF GOLDFIELD LOSES EATHER

Former California State Senator H. V. Morehouse, at present a prominent Goldfield attorney, passed through Tonopah on the morning train today, enroute for San Francisco, having received an advise that his father was dead in that city. During his absence from Goldfield his business associates, Messrs. Thompson and Thompson, will attend to the judge's business. Senator Morehouse has the deepest sympathy of his numerous friends in Tonopah, where he is well known and well thought of.

ATTEMPT TO ROB AN ELKO STORE OF JEWELRY

ELKO, Nevada, Feb. 17.—Dave Wilson, a Carlin bartender, glass window of Seymour Jacobs' store Monday afternoon so that he could help himself to Mr. Perstach's jewelry displayed in the window. Wilson was captured by men who were in the store.

While waiting for the sheriff, Wilson tried to get away, but was thrown down and held until the

officer came. He threw away the glass cutter he was using on the window, but it was found. He had made several cuts on the glass when discovered and would soon have had out a piece large enough to put his hand through and rake out considerable valuable jewelry.

Wilson was searched in the store and \$160 in money and several cartridges were found on him. He is about 35 or 40 years of age and weighs about 165 pounds.

INDIANS CHARGED WITH MURDERING FOUR STOCKMEN

RENO, Feb. 17.—Advices received here yesterday say the bodies of the four sheepmen murdered near Camp Denio were gotten out. All were horribly mutilated and one badly disfigured.

The officers in charge of the searching party believe the work was that of a big band of Indians. The posse will strike the trail tomorrow, leaving Camp Denio early in the morning.

A description of the property taken by the murderers includes five horses, a gold watch, a silver watch and one Savage automatic pistol.

RUSSIA PUT ULTIMATUM TO CHINA

FRIENDLY RELATIONS CEASE
UNLESS DEMANDS ARE
COMPLIED WITH.

ST. PETERSBURG, Feb. 17.—Unless immediate compliance is made to the six points contained in an ultimatum presented to China by Korotovitz, Russian minister to that country, all friendly relations between the two countries will be considered at an end by Russia. The points referred to are:

First—Russia's right to impose import tax duties until limited, except fifty-first zone, which duty free.

Second—That extraterritorial rights of Russians in China shall not be infringed and that legal suits involving Russians and Chinese shall be considered mixed jurisdiction.

Third—That Russians shall enjoy special privileges and trade duty free in all commerce of Mongolia and extra wall provinces.

Fourth—That Russian consulates can immediately be opened at Kobo, Khumi and Guchen.

Fifth—Due respect by local authorities for Russian consuls.

Sixth—That Russians enjoy the right to acquire real estate and erect structures in Mongolia and extra wall provinces.

1500 STUDENTS JAILED FOR RUSSIAN RIOTS

ST. PETERSBURG, Feb. 17.—Fifteen hundred striking students were arrested yesterday following riotous demonstrations in the university precincts. After having been closed for two days the lecture rooms were opened this morning. The attendance was small and those present were soon driven out by fumes of noxious chemicals with which the students filled the rooms.

COURT HOUSE WATER PIPES AGAIN IN RUNNING ORDER

Through the efficient work of the prisoners in the county jail the water pipes in the court house are again in working order. Considerable annoyance was caused around the building yesterday on account of the water being frozen tight.

REVENGE IS REASON FOR A BIG FIRE

W. A. WADE OF MINA LOSES
EVERYTHING IN BLAZE—ACT
OF INCENDIARY.

MINA, Nev., Feb. 17.—The place of business of W. A. Wade of this city has been destroyed by fire, undoubtedly the act of some incendiary. The building and contents are a total loss. Mr. Wade is a brother-in-law of Senator Belzar and it is believed that the act was one engendered over the recent division of Esmeralda county, the feeling being aroused through the appointments made in Mineral county.

Recently a letter, of an insulting character, was sent from Mina to Governor Oddie in Carson City and Senator Belzar has also been threatened with death and destruction of property. In the absence of a peace officer at this point the matter will be at once investigated by the state police with the hope that the guilty party or parties may be brought to justice.

Several vicious acts have been committed recently at this point and it is the desire of all peaceful and law-abiding citizens that the matter be thoroughly sifted down, in order that it will be safe to reside in Mina.

Mr. Wade is one of Mina's respected business men and it is to be hoped the "fire fiend" will soon be arrested.

IT'S AWFUL ROUGH ON THE GIRLS

HOW OLD? EVER MARRIED BE-
FORE? HOW OFTEN? ARE
NEW QUESTIONS.

CARSON CITY, Nev., Feb. 17.—Should the bill which has been introduced in the legislature by Salter of Ormsby become a law there will be weeping and gnashing of teeth among the women who seek to enter into the bans of wedlock. The bill insists that the girls must confess to their correct age, must tell whether or not they were ever married before, and if so, how often and to whom. They must also give their mother's maiden name.

Imbeciles, idiots, epileptics, persons of unsound mind, habitual drunkards, habitual users of narcotic drugs and habitual criminals are denied the privileges of matrimony.

The bill provides against the marriage of anyone charged with rape or criminal assault to the complainant in the case unless the female is in a delicate condition. Persons afflicted with a communicable, tubercular or constitutional disease are also prohibited from marrying.

Hacker of Nye county asked that his divorce bill be indefinitely postponed. He expressed the opinion that if it came before the assembly it would be amended beyond recognition. The bill provided only for a six months' residence and provided for no material change from the present law.

At last night's session assembly bill 16, by Arnold of Esmeralda, was laid on the table. This is the public utility bill which the Business Men's club of Goldfield repudiated after an indorsement by the club without discussion or knowledge of the provisions of the bill had been telegraphed to the Esmeralda delegation.

One of the freak measures of the present session is credited to Assemblyman Cocks, of Storey county, amending the act concerning crimes and punishment. It provides that anyone making a wrongful statement of his wealth, salary received or other resources is guilty of a felony. The crime is punishable by either fine of \$1000 or five years in the penitentiary, or both.

vada by two guards armed with shotguns, was taken to the Selby Smelting company for refining. The richest single express shipment from the Goldfield district was taken from the Hayes-Monnet property four years ago. This shipment was worth \$574,598.

REBELS AGAIN WIN BATTLE FROM THE FEDERALS

MEXICALI, Mex., Feb. 17.—Governor Vega, governor of Lower California and commander of the federal troops, was badly beaten by the insurgents in a furious battle yesterday afternoon, and retreated towards Ensenada, through the Copopa mountain pass. Governor Vega was seriously wounded in the conflict, an insurgent bullet piercing his neck and another his side. He is being carried by his men in an improvised litter.

Simon Berthold, second in command of the insurgent forces at Mexicali, left yesterday morning with about 100 men, and it is supposed he is in pursuit of the retreating regulars. But the main body of the rebels remain entrenched in the arroyos washed out by the Colorado river during its last rampage. They are awaiting the arrival of the federal army, which is believed to be on the way from Sonora by way of Yuma. It is understood here that these troops will be sent to where the break of the Colorado river into the Rio Abejones is being closed by Colonel Ockerson at an expense of about \$1,000,000. They are supposed to protect that work from molestation by insurgents.

In every case the men had been shot in the back. Although splendidly armed with the latest of

high-power rifles, Governor Vega's troops were otherwise poorly equipped. The weather here is freezing, yet their uniforms consist of white cotton pajamas, white and blue caps and leather sandals modelled after those the Roman soldiers wore. The rebels took the rifles of the dead but left everything else and made no effort to bury them. There were no haversacks about the bodies.

Food was carried in handkerchiefs and consisted of green coffee, coarse flour and corn meal, salt sides that were hard as board.

General Leyva, chief of the insurgent forces here, was visited yesterday by the correspondents and when asked regarding the battle, stretched his arms out and pointed towards the torrent-scarred mesafrontage of the town to the south and said:

"We could have held Mexicali against 1000 men. Governor Vega is no soldier. If he were he would not have attacked up from the south."

The route traversed by Governor Vega's army as it advanced to the attack, was over a mosquito covered valley full of gullies, which ended abruptly in a forty-foot canyon at the river bank.

Even if he and his men had succeeded in reaching the river they would have been forced to ascend

the steep sides of the canyon and ford a rivulet directly under the guns of the insurgents.

SCOUTING PARTIES FAIL TO FIND INSURGENTS

EL PASO, Texas, Feb. 17.—Small cavalry scouting parties under Colonel Rabago, reached Juarez last night after spending a day scouring the country in the immediate vicinity of the city. They were unable to find traces of any insurgents but no attempt was made to approach Guadalupe, the present headquarters of the insurgents.

General Navarro last night declined to confirm the report that he would lead an expedition against Guadalupe today. However, yesterday's scouting operations showed that the country was clear for several miles in that direction and it is believed a movement against the town of Guadalupe is contemplated by the federals.

Insurrectionary advices state that Francisco Madero is selecting cabinet men for his provisional government, but is keeping their names secret for the present.

Elated by the defeat of Governor Vega, General Leyva and all his men are thinking only of holding Mexicali against any force that Diaz

the league's representatives.

The meeting will be a time affair this year, according to President Ban B. Johnson, who says there is little to take up the attention outside of the adoption of the schedule. Among the officials who are in attendance are: President Frank Farrell of the New York team and Scott Arthur Irwin. Manager Hal Chase of the New York club is expected to come from California to hold a conference with President Farrell.

ORDINANCE FOR THE REGULATION OF MOVING PICTURE SHOWS.

The proposed ordinance prohibits all moving pictures showing nude forms, murders, stabbing affrays, shooting scrapes or violence of any kind.

AMERICAN LEAGUE MEET IN CHICAGO

CHICAGO, Feb. 17.—Club owners and officials of the American league met here yesterday to adopt the 1911 schedule, drafted by President Johnson, and now in the hands of

\$125,000 GOLD BULLION SHIPMENT ARRIVES

SAN FRANCISCO, Feb. 17.—In point of value, the second richest single express shipment of gold bullion ever sent out of the state of Nevada arrived in San Francisco early this week from the Goldfield Consolidated mines. The shipment consisted of 15 ingots of metal, weighing 1480 pounds and worth \$125,000. The bullion, which was accompanied all the way from Ne-
